

PRESS RELEASE

WILD SHINERS' WILD SHINER BALL WILL BE WILD

Back in the good old days, life was exciting.....on a daily basis. Men ambushed wooly mammoths with spears while wearing skins of saber-toothed tigers slewn on previous mornings. Back at the cave they wrestled their women to the ground and mated them.

Man has since evolved to the present epoch where both sexes slither off to sit in square cubes and stare at rectangular screens for hours on end and talk, talk, talk while holding a small box to their ear. At night they go back to large box-shaped dwellings and stare silently into boxes with colored lights emanating from them, while eating boxed food of unknown origin. By no stretch of the imagination can this be considered exciting.

This state of perpetual hypnosis has created placid, harmonious societies across much of the world, except in unfortunate parts of the world where the small boxes with the moving lights are not found in high enough densities. In such places, people still engage in widespread mayhem regularly. This is not so here in the Land of Good Behavior. We never break outside the box.

Oh really? Unbeknownst to most of the populace, each year about this time, a throng of modern humans in central Florida gather in a large cave-like edifice for one evening of uncharacteristically unmodern mayhem. Primeval music activates gut instincts and generally sets things afire. A constellation of black lights creates an Aurora Borealis over the tribe of 2 legged, upright Neo-neanderthals.

This phenomenon is known as the Wild Shiner Ball and has occurred for, lo, the past two decades under the direction of a mysterious group, known, coincidentally, as the Wild Shiners. Although little is known about this group, they sure throw a great party. It will be Friday night, February 17 from 8:00 PM to 1:00 AM at the Webber International University Gym in Babson Park (AKA: Baboon Park). Music by Jr. & the MD's. \$10 per hominid, \$25 per couple (go figure... it's been that way since the Late Pleistocene). Bring your own cooler (Fred Flintstone style preferred).

For more information, contact Yahvoul Shiner at (863) 696-3405
